

LIST OF TABLES

Table I-1	Financial indicators (1 USD = 1507.5 LBP)	12
Table I-2	Budgetary resources indicators (MOPH 2005)	16
Table I-3	Indicators of the demographic transition in Lebanon	23
Table I-4	Distribution of households by availability of health services within a ten-minutes walking distance (n= 879,855 households)	25
Table II-1	Distribution of public hospitals and beds by mohafazat	28
Table II-2	Distribution of private hospitals according to bed capacity by mohafazat (2007)	31
Table II-3	Distribution of MOPH contracted hospitals and allocated budget by mohafazat	32
Table II-4	Per capita allocation of MOPH hospitalization budget by mohafazat (LBP)	32
Table II-5	Availability of "high-tech" services and heavy equipment (2005)	34
Table II-6	Accreditation of private hospitals by mohafazat (December 2006)	35
Table II-7	Medical facilities licenses: distribution by type and region (MOPH, Dec.2007)	36
Table II-8	Immunization coverage reached by routine activities in 2006 and 2007	41
Table II-9	Achieved coverage through National Immunization Days as reported by districts' officers	41
Table II-10	Distribution of TB cases by age group (2007)	44
Table II-11	Distribution of centers benefiting from the reproductive health program by mohafazat (2006)	45
Table II-12	Chronic illnesses drugs program: distribution of health centers and beneficiaries by type and region	46
Table II-13	Epidemiological profile of beneficiaries and their distribution by co-morbidity and multiple therapy in% (N= 157,845 patients in 2007)	46
Table II-14	Distribution of physicians by mohafazat and specialty (2007)	53
Table II-15	Physicians registered in the Lebanese Order of Physicians by country of graduation (2007)	53

Table II-16	Distribution of dentists by Mohafazat in 1994, 2000 and 2007 and ratio per 100,000 population (2007)	54
Table II-17	Distribution of specialized dentists by country of specialty (2007)	55
Table II-18	Evolution of the number of licensed pharmacists and pharmacies (2001-2007)	55
Table II-19	Pharmacists and pharmacies per 10,000 inhabitants and by mohafazat (2007)	56
Table II-20	Distribution of diplomas among participants in the 2004 National Nursing Survey	57
Table II-21	Distribution of nurses by mohafazat (2007)	58
Table II-22	Lebanese University: Public Health Faculty graduates (2000-2006)	59
Table II-23	Health Resources compared to Selected OECD countries (2006)	61
Table III-1	Distribution of NSSF beneficiaries, 2008	66
Table III-2	NSSF variations in utilization and spending (1998-2005)	66
Table III-3	CSC variations in utilization and spending (1998-2005)	69
Table III-4a	Military schemes: Hospitalization rates and costs per beneficiary (2005)	70
Table III-4b	Military schemes: Utilization and cost of hospital and ambulatory services (1998-2005)	71
Table III-5	Distribution of residents by covering fund according to their eligibility	74
Table III-6	Ministry of Public Health Budget (2002-2007) (1000 LBP) [1507.5 LBP=1 USD]	77
Table III-7	Government budget, Debt servicing and MOPH share 2002-2007 (1000 LBP)	78
Table III-8	Breakdown of MOPH accrued expenses on curative care in 2005 (1000 LBP)	80
Table III-9	Public expenditures on health services provided by the private sector (2005) [1507.5 LBP = 1 USD]	83
Table III-10	Acute Inpatient Care (2005)	84
Table III-11	Public expenditures breakdown (2005) [1507.5 LBP = 1 USD]	84
Table III-12	Private Insurance adherents by type of coverage (in USD)	86
Table III-13	Private Insurance premiums and claims 2005 (in USD)	86

Table III-14	Mutualities adherents and contributions by type of coverage (2005)	88
Table III-15	Government subsidies for Mutual Funds (1000 LBP) (2005)	88
Table III-16	Distribution of health expenditures by households and intermediaries 1998 and 2005 (1000 LBP)	90
Table III-17	Average expenditures per household and share of health spending: 1998 and 2004 (LBP)	90
Table III-18	Households health (HH) out-of-pocket (OOP) spending, 1997 and 2004 (in LBP)	93
Table III-19	Health share in households spending (in%) by income category 1998-1999 and 2004-2005	93
Table III-20	Distribution of financing by sources and intermediaries (1000 LBP) (2005)	94
Table III-21	Households annual health expenditures by spending item (LBP) (2004-2005)	96
Table III-22	Spending on hospitals and pharmaceuticals by households and intermediaries in 2005 (1000 LBP)	97
Table III-23	National Health Accounts summary statistics	97
Table III-24	International comparison of health expenditures per capita and as a percentage of GDP	99
Table IV-1	Distribution of the number of registered drugs by exporting country (2008)	102
Table IV-2	Spending on drugs by households and intermediaries in 1998 and 2005 (1000 LBP)	104
Table V-1	Comparison of the third accreditation survey results (Nov. 2005) with the old classification system	128
Table V-2	Accreditation status pre and post voluntary auditing (n=33) and final results as of Dec. 2006 (n=144)	128
Table VI-1	PHC and public health programs: MOPH incurred expenses and NGOs contribution estimates 2007 (1000 LBP)	142
Table VI-2	MDGs related health indicators	148
Table VI-3	Tuberculosis related indicators (per 100,000 inhabitants)	148
Table VI-4	Safe Motherhood reported data for 2007 and first 6 months of 2008	149
Table VI-5	Wadi Khaled output indicators (2004-2007) in comparison with PAPFAM 2004 national indicators	151

Table VI-6	MOPH covered hospitalizations and incurred cost 2001-2007	154
Table VI-7	MOPH coverage: Distribution of hospitals admissions and bills per mouhafazat (2007)	155
Table VI-8	Distribution of disease with heavy financial burden according to the MOPH drugs dispensing center	162
